David,

Here is another project that needs to get done if you have availability?

Changes:

- 6" Casters
- BG Changes
 - Heat Over Heated Shelf
- Lineup flips orientation

Please take a look at the updated quote and notes in the attachments and the notes in blue above.

Let me know if you can work on this!

Thank you,

Jill

Hi David,
Notes from Anthony-
All Units:

- Add Custom 6" Casters, Keep Counter Height at 34" and Shrink the Bases of the Units to Accomplish That

Server 2

- Call Out Heat Strip in Breath Guard

Call if you have any questions.

Jill

David,

Please change the notes on all casters to 6" Caster. This is not a standard caster but we just need to show the note and change the size. This will have the same type of spacer as the standard casters but the caster itself needs to be 6". This detail is *critical* to this project otherwise I would have sent out

Please update these and let me know if you have any questions

David,
Here are some revisions on a project you completed recently. Please reach out to Anthony with any questions. If you need anything else from me let me know.
Thanks,
Jill

Design Team,

Here is a minor update for a Bethel drawing we drew recently. Project code is EVRH2

The markups should be self-explanatory but let me know if you have any questions

This looks good but we need to remove the grommet and electric from server 1. Everything else looks like it was updated
