David,

Please complete a drawing package for the project attached, it is two separate serving lines one for boys and one for girls

[View "Bar Boy / Riverhead Middle School / SIGSERV" Quote](#)

I have attached the customer provided sketch, make the units match the quote and disregard the OAL listed on the customers sketches

Thanks

David,

Can you make this project a priority over all WACO projects and have it done by end of day Thursday the 8Th? Jim and Anthony asked to get this back by then and asked for the reprioritization.

Thanks you.

Jill

Here is a hot update that should not take long for David. Please have him jump on this soon if he can, we have PO's for these three schools in house and are trying to get the drawings signed off on.

We are replacing two units from this line with two units from another existing Riverhead Schools project. They are drawn already but just need to be dropped into this line.

Let me know if he has any questions
