CC: Chris Cook <chris.cook@itwce.com>

Good morning David,

Please provide a drawing for Next Step Design in their format (plan view, isometric, elevation and utilities specs including total BTU per line up) for their project called Autograph Hotel Austin. Attached are a PDF file with the quoted equipment outlined in red, an image NSD provided for the gas connections, and a copy of our quote for the equipment spec. The drawing file is needed by COB 6/3/22 or sooner. Next Step Design did not number the equipment so a summary of the equipment spec is below.

- Items 1, 2, and 3: VGMT36C, 36IRB-N, V2B12B
 - 36IRB-N is wall-mounted above the VGMT36C
 - Gas comes in on VGMT36C and manifolds to V2B12B
 - V2B12B is on LEFT of VGMT36C -- Items share a common condiment rail
- Items 4 and 5: V6B36C and VWT12B
 - VWT12B is on LEFT of V6B36C -- Items share a common condiment rail
 - Gas comes in on VWT12B and manifolds to V6B36C
- Item 6: VWT18B -- stands alone
- Items 7, 8, and 9: VWT12B, V4B36B, and VCBB36C
 - VWT12B is on LEFT, V4B36B is in the middle, VCBB36C is on the RIGHT
 - Gas comes in on the VWT12B and manifolds to the other two pieces
 - Items share a common condiment rail

If you have any questions or need anything else, please let me know.

Thank you!

Barb Alger
