Good afternoon David,

Next Step Design asked that we re-quote this 2-piece lineup so the gas connection is coming directly into the range and not through the worktop. Can we get the drawings updated to match? Our revised quote is attached for reference. We are quoting the 1" pressure regulator because they advised they already have a 1" rough-in for the gas line coming into the building. Next Step would like to get this back by Thursday AM (or sooner) if possible.

If you have any questions or need anything else, please let me know.

Thank you!
