CC: Roxanne Holt <Roxanne.Holt@vulcanhart.com>, Jake Ritchie <jritchie@squierinc.com>, Colin Squier <csquier@squierinc.com>

Good morning David,

Please provide a drawing for Next Step Design in their format (plan view, isometric, elevation and utilities specs including total BTU per line up). Attached are the drawing files (CAD and PDF with Vulcan items outlined) and our quote for the equipment spec.

Project Name: Hilton Marina Events Bldg.

Project Location: Fort Lauderdale, Florida

If you have any questions or need anything else, please let us know.

Thank you.

Good morning David,

Thank you for the quick turn on the drawings but we do have a few revisions to request.

- The drawings need to be in Next Step Design's format on their page size showing plan, isometric, and elevation views as well as utilities specs including total BTU per line up
- Please add the 34DFS48 double-deck flow-thru shelf over the first line-up to the left of the salamander (Items 5 and 6)

If you have any questions or need anything else, please let us know.
