Hi David,

Please acknowledge receipt, and generate a drawing for the quote linked below. This is for The Italian Market in Nashville, TN.

There is a floor plan attached, but I swapped item numbers 19 and 20 due to Vulcan not being able to offer oven bases on 24" HD ranges. I also added a 24" cheesemelter mounted to item 20 on the quote at the request of the consultant.

Please let me know if you have any questions.
