Good morning David,

Please provide a drawing for Next Step Design in their format (plan view, isometric, elevation and utilities specs including total BTU per line up) for their project OTG LGA Italian. Attached are the CAD plan and elevation drawings and a copy of our quote for the equipment spec. Below my signature line are the snips provided by Next Step of both the plan and elevation views with the equipment models highlighted (Items 46, 49, 50, 51, and 52). Drawing file is needed by noon on 8/6/21 or sooner.

If you have any questions or need anything else, please let us know.

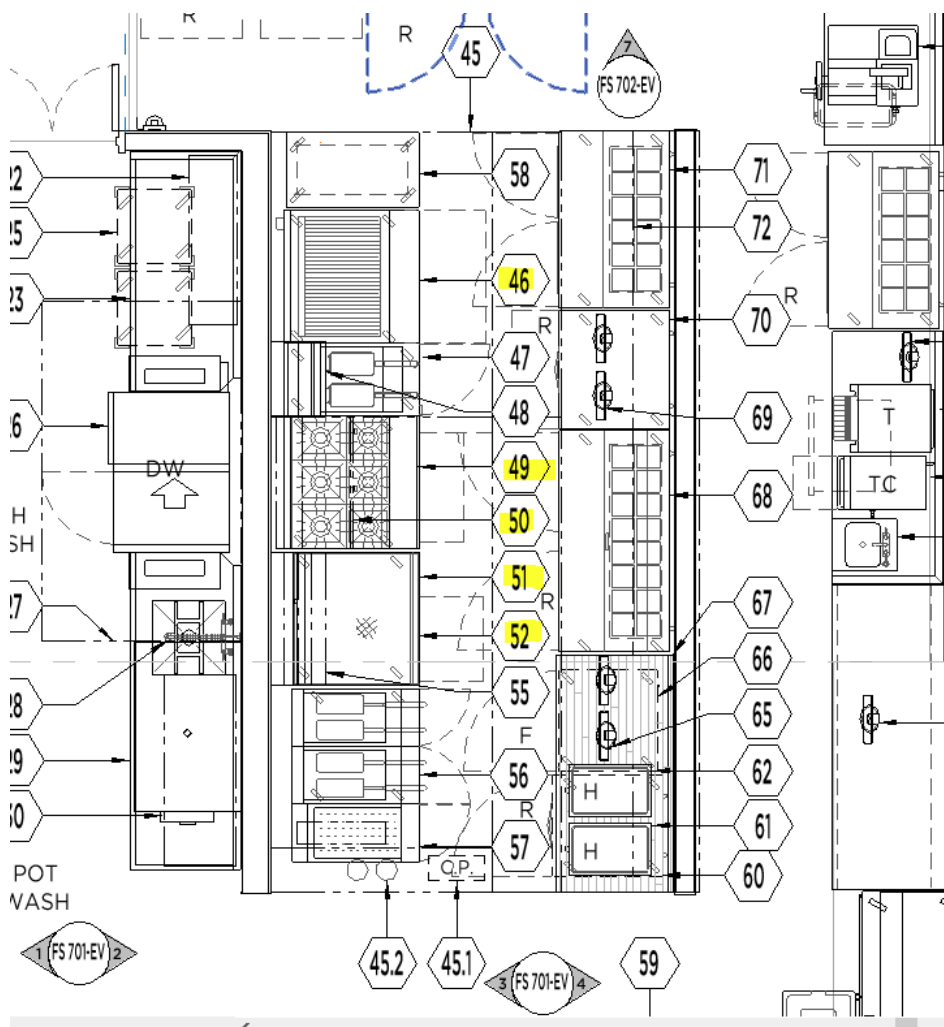

Thank you.
