Hi David,

Working with this country club and they would like to see a layout of our proposed range line.

Project: El Niguel Country Club – Laguna Niguel, CA

From Left to Right;

1 ea HD RANGE, 36", 6 OPEN BURNERS

Vulcan V6B36S

V Series Heavy Duty Range, gas, 36", (6) 35,000 BTU open burners, cast iron grates, standard oven, stainless steel front, front top ledge, sides, base, burner box & stub back, 6" adjustable legs, 260,000 BTU, CSA, NSF

1 ea NOTE: Item qualifies for a no charge equipment check out after the unit has been fully installed & put into service. contact your Vulcan Representative for more details

1 ea 1 year limited parts & labor warranty, standard

1 ea Natural gas (specify elevation if over 2,000 ft.)

1 ea NOTE: A regulator must be used on this equipment

1 ea 1-1/4" front manifold connection

1 ea Front manifold: cap & cover, open

1 ea V36-TOE 3" toe base, for curb mounting, 36"

1 ea HD RANGE, 36", 6 OPEN BURNERS

Vulcan V6B36S

V Series Heavy Duty Range, gas, 36", (6) 35,000 BTU open burners, cast iron grates, standard oven, stainless steel front, front top ledge, sides, base, burner box & stub back, 6" adjustable legs, 260,000 BTU, CSA, NSF

1 ea NOTE: Item qualifies for a no charge equipment check out after the unit has been fully installed & put into service. contact your Vulcan Representative for more details

1 ea 1 year limited parts & labor warranty, standard

1 ea Natural gas (specify elevation if over 2,000 ft.)

1 ea NOTE: A regulator must be used on this equipment

1 ea 1-1/4" front manifold connection

1 ea Front manifold: cap & cover, left

1 ea V36-TOE 3" toe base, for curb mounting, 36"

1 ea HD RANGE, 36", THERMOSTATIC GRIDDLE

Vulcan VGMT36S

V Series Heavy Duty Range, gas, 36", griddle, 3/4" thick polished steel plate, snap action thermostatic controls, standard oven, stainless steel front, top front ledge, sides, base, burner box & stub back, 6" adjustable legs, 140,000 BTU, CSA Flame, CSA Star, NSF

1 ea NOTE: Item qualifies for a no charge equipment check out after the unit has been fully installed & put into service. contact your Vulcan Representative for more details

1 ea 1 year limited parts & labor warranty, standard

1 ea Natural gas (specify elevation if over 2,000 ft.)

1 ea NOTE: A regulator must be used on this equipment

1 ea 1-1/4" front manifold connection

1 ea Front manifold: cap & cover, open

1 ea V36-TOE 3" toe base, for curb mounting, 36"

1 ea HD RANGE, 12", WORK TOP

Vulcan VWT12B

V Series Heavy Duty Range, 12", work top, storage base with cabinet doors, stainless steel front, front top ledge, side, base, burner box & stub back, 6" adjustable legs, CSA, NSF

1 ea 1 year limited parts & labor warranty, standard

1 ea Natural gas (specify elevation if over 2,000 ft.)

1 ea PRESREG-NA11/4 1-1/4" NPT pressure regulator (Natural gas)

1 ea 1-1/4" rear gas connection, standard

1 ea Rear gas connection: cap & cover, right

1 ea V12-TOE 3" toe base, for curb mounting, 12"

REGULATOR TO BE INSTALLED IN CABINET BASE

This unit below will be wall mounted above the second open burner range and griddle.

1 ea CHEESEMELTER, GAS

Vulcan VICM72

Cheesemelter, gas, 72", (2) infrared burners, 3-position heavy duty rack, removable pan, stainless steel interior, includes: wall mount panel, 60,000 BTU, NSF, CSA Star, CSA Flame

1 ea NOTE: Item qualifies for a no charge equipment check out after the unit has been fully installed & put into service. contact your Vulcan Representative for more details

1 ea 1 year limited parts & labor warranty, standard

1 ea SPECIFY TYPE OF GAS WHEN ORDERING.

SPECIFY ALTITUDE WHEN ABOVE 3,999 FT.

Please let me know if you have any questions.

Thanks!

I checked with the factory, the list price is \$1951.00 and below is what we will provide, the items in yellow the end user/installer will need to supply.
We can also make the work top so you can remove it, however it will not allow access to the regulator. It would help in making the cut out in the top section.
If you want the removable top be sure and call that out on the purchase order.
a. We provide the unit with a short pipe and 90° elbow to take the gas down into the

cabinet base.

b. The holes would need to be cut in the field by the installers.

c. Installers will need to provide the remaining gas piping and regulators (if not purchased from Vulcan).

Jeanine,

I do not see a device for this already, because if I remember correctly this cabinet base will be on the right and will have to be cap and cover right, open left, so that will have to be sent up to the plant to get that SEF number once you have the revised purchase order.

Nan

If you are asking about the inside regulator, this is the answer I sent last week. It is a no on that one there isn't enough room to add the extra piping since it has a griddle top section and not a work top section.

Attached are pictures of the existing line up. This is the old Vulcan 34" series, so that is why we are having difficulty making this fit, especially since they have the front manifold piping coming from the right side of the griddle.

Since we are increasing the footprint with our current offering, we are filling up the space that the front manifold piping is currently utilizing, which is why we were trying to interplumb. Based on the email below, the only way to accomplish this is to reduce the size of the griddle and add a 12" work top, correct?

Is there any other option available that would have us keep the griddle unit at 48", as it is critical to their current operation?

As for the risers, I will have them revise to standard stub back and wall mount the cheesemelter.

Thanks!

Thank you,

Jeanine Thompson

Yes please, the way the plant is suggesting to build it with the internal gas piping.

Thanks!

Are you looking for a line up the way the plant said we could set it up – 36" griddle- VGMT36S
and VGT12B with the internal gas piping, is that what he looking for?
We can request from David Bethel (Engineer) but I need the line up first and I don't know if
he can show the internal gas piping.

[EXTERNAL]

Hi Jeanine,

Still working on a solution for this project.

Can you please see if a drawing can be supplied that shows the line up with the work table
option so we can review with the customer?

Thanks!
