Thank you Roxanne,

We have a few corrections required:

B11.1 & B11.1a flow thru double overshef missing from drawing
[B11.2 – B11.6] *order of these is reversed on drawing*
B11.6 fryer missing from drawing (need fryer shield as well)
B11.9 pasta rinse missing from drawing; can a shield be added?
B11.13 note convection oven will require shield and be oriented "south"
B11.14 salamander missing from drawing

Please note this suite calls for a common front rail with towel bar around the perimeter and a toe kick where available. There is also a faucet located in the utility chase behind the pasta rinse.

We also wanted to make a note that there are a few misspelled words on the drawing; MCCCC = MCCC; 'Montgumery' = Montgomery; Country = County.

Thank you!

Ask and you shall receive! 🙏

Take a look and let me know what you think. David had some concern he did not get everything they wanted in the design.
