Sorry for the late response – spinning plates here. Yes – David Bethel will be the contact for that. I just simply shoot him an email like this 😊

[@David](#) – can you put together a design showing the following lineup, please?

Left to Right:

V2FT36B + V2B12B

48" Overlapping Front Ledge

48" Stub Back

48" Dolly Frame

FRTTOP-48CMD

VOVER-48ST

VDOLLY-48

Thank you,

Roxanne Holt (she/her)

Roxanne,

Mike Hainer up in Canada is asking for a drawing. Are these done with David Bethel? Are you able to request it or is there form or process for this?

Right Side:

V2FT36B-707

V2FT36B 36 in. WIDE

Subject: RE: Russell Hendrix Purchase Order 00442139 END DIVE

Hi Jason,

Answers below:

1. Is it unusual to request a modular unit with a separate cabinet base for both?
Wouldn't I just configure this with a base instead of modular.
 - a. Yes – it is unusual and more expensive.
 - b. They should instead order: V2B12B + V236HB
 - i. Add any overlapping components you need to tie the units together:
overlapping front, overlapping stub, dolly frame if wanted.
2. Should one be rear gas and the other front manifold since it's being built as one unit?
 - a. The gas line can only be put thru the V236HB (there is no option for rear gas line on the V2B12B)
3. Is it unusual to have casters on a unit like this? How would that be ordered since casters is not a pick in the configurator.
 - a. No, but they will need to be ordered separately: CASTERS-RR4 or CASTERS-ADJRR4
 - b. Alternatively, they can have a dolly frame in lieu of casters and we would install at the factory.

Thank you,

Roxanne Holt (she/her)

Hi Lorrie and Roxanne,

It's been a while since I've done one of these banks and this one has me a bit confused. I want to make sure I'm asking them the right questions to figure this out. It looks to me like they want it set up like below but I have a few questions.

1. Is it unusual to request a modular unit with a separate cabinet base for both?
Wouldn't I just configure this with a base instead of modular.
2. Should one be rear gas and the other front manifold since it's being built as one unit?
3. Is it unusual to have casters on a unit like this? How would that be ordered since casters is not a pick in the configurator.

Left side:

1 ea; V2B12 V Series Heavy Duty Range, gas, 12", (2)
35,000 BTU open burners, cast iron grates, modular
frame, stainless steel front, front top ledge, sides,
base, burner box & stub back, 4" flanged feet,
70,000 BTU, CSA, NSF
1 ea; VCB112 12" Cabinet base only

Right side:

1 ea **HD Range, 36", 2 French Hot Tops**
Vulcan Canada V2FT36 (541.0 lbs total. Class: 85.
Packed: 1 ea)
V Series Heavy Duty Range, gas, 36", modular, (2)
18" French tops, stainless steel front, front top
ledge, sides, base, burner box & stub back, 4"
flanged feet, 50,000 BTU, CSA, NSF
1 ea 1 year limited parts & labor warranty, standard
1 ea -1 Natural gas (specify elevation if over 2,000 ft.)

Cathy,

I know Vulcan *can* get a drawing made if needed, but it's not part of the process that we've used in the past. This is a small set up and I'll just need to know the position of each unit then I'll find or create the devices and send them to you for you to order. Arash sent the attached recently and it was pretty simple especially if you want cap and covers on both ends and no overlapping front ledges or anything special. Just let me know left to right how these will be connected and I can get started on getting the devices.

Kind regards,

Jason Schaeffer

Hi Jason,

Attached PO and quote is for a modular kitchen. See below where Kevin advises that Vulcan will prepare drawing once I send PO. How would you like me to enter the codes as they will change. Do you want a placeholder like a flight?

Please advise.

Thanks

Cathy
