

Subject: FW: ORDER-NEW (2-Series) - The Wesley Community (Julie Hein) | DUE = Best Date (Order Needs Sign Off)
From: Jill Hundley <jhundley@vollrathco.com>
Date: 3/16/2021, 6:47 PM
To: David Bethel <ddb@davidbethel.com>

David, Here is a new project. It is due on Friday at noon. Let's plan on talking tomorrow about if you can meet this deadline and any other project questions.

Thanks!

Jill

To: David Bethel <ddb@davidbethel.com>

Hi David- this is looking good. Can you add storage with sliding doors, and will you add specifications like you usually do?

Thanks,
Jill

Subject: WESLEY COMMUNITY - VL-WESLY # 1

Good morning

I took some guesses for a starting point.

I'm not great with metric but the caster elevation dimensions looks wonky

David,
Here are some updates:
The base is vinyl clad carbon steel, not Stainless.

The vinyl should be the "American natural" finish – light wood grain (they changed their mind at the time of order and we honored the request)

The amperage and electrical is 120 Volt, 16 Amps, NEMA #5-20P (in the quote)

Thanks- if we could get this turned around today that would be fabulous!
Jill

100% my miss for not noticing it before, but that breath guard should be a cafeteria style/pass over style breath guard based on the quote. See attached spec sheet and our product drawing.

A few other notes that I would like added.

1. Height to the push bar
2. Breath guard dimensions (top shelf, height to top shelf, space behind) when the breath guard is corrected.
